Hi Shayne,

Given the current disturbance, the average cost reclamation bond amount (not including the "Future Mining" areas) is:

1st acre	\$8,000	
~2 additional active acres	\$10,000	(2 acres x \$5,000/acre)
~3 regraded/flat acres	\$3,000	(3 acres x \$1,000/acre)
TOTAL	\$21,000	

This assumes that any of the small existing structures could easily be demolished and buried in a nearby pit without additional bond, if needed. I have SITLA's concurrence on this total amount.

Peter
